- Identify an emergency and crisis response plan
- Manage diabetes in youth
- Learn to provide emergency help for mental health crises

Learning Outcome

Participants of this event will learn:

- Cultural behaviors that affect a child's ability to adhere to recommended self-management of diabetes behaviors
- Indicators of students on a path to violence and how to respond
- To describe situations that constitute a disaster at school as well as the four phases of emergency planning and the incident command system
- To increase awareness and provide practical information related to mental health issues in youth

Target Audience

- Nurses working in schools
- Illinois professional educator licensed school nurses
- School-based health center staff
- School health administrators
- Health care providers
