2. Review Membership Survey Presentation for March meeting, preparing questions and discussion

The results of the 2019 Member satisfaction survey were reviewed. Members discussed any issues in which the majority of participants were not very satisfied or satisfied, including:

- Use of webinars for IHIPC meetings
- Use of website/social media
- Fostering representation of specific groups affected by HIV
- Webinars having improved the level of community engagement

These are items that we continually try to address, but we can always improve with input/ideas from members.

There was discussion that we will continue to make webinars as engaging and welcoming as possible.
