Subject : GATA Updates and Spring 2016 Newsletter

Message :

Good morning,

As you are aware, Illinois has moved into the implementation phase of the Grant Accountability and Transparency Act (GATA). Please find attached the Governor's Office of Management and Budget's Spring 2016 GATA Newsletter with updates on state-wide implementation and Fiscal Year 2017 processes. In addition, the State has launched its new GATA website, <https://grants.illinois.gov/>. Visit the website to learn more about GATA, and to access resources and recorded training webinars. You can also access the trainings and webinars directly by clicking [HERE](#), and in the EGrAMS Training Materials section.

Lastly, GATA requires applicants to have an active System for Award Management (SAM) status. If your agency has not yet registered in SAM, please click [HERE](#) to view instructions for completing the process.

Thank you,

Estrelitta Harmon, MPH, LSSGB

Chief, Division of Grants Management and Administration

GATA Chief Accountability Officer

Office of Performance Management

Illinois Department of Public Health
