

**Control of Communicable Diseases Code
77 Ill. Adm. Code 690**

Proposed Rule Amendments Summary

This rulemaking proposes to reinstitute the reporting of *Campylobacter* to the Department of Public Health. The proposed amendments seek to add the method of reporting, time reporting requirements, disease-specific case control measures, and laboratory reporting requirements. The restitution of the reporting of *Campylobacter* will aid IDPH in the detection of cases, clusters, and outbreaks of campylobacteriosis in Illinois.
