

**Immunization Code**  
**77 Ill. Adm. Code 695**

**Proposed Repealer Summary**

This rulemaking proposes to repeal the Immunization Code and add its provisions to the Child Health Examination Code (77 Ill. Adm. Code 665) to create one comprehensive regulation covering both child and student health examinations and immunizations. Currently, child and student immunization requirements are covered in both the Immunization Code and the Child Health Exam Code resulting in redundant regulations. The repeal of the Immunization Code will remove the redundancy and create a central location for parents and health care providers to find the health examination and immunization requirements.
