Subject : Save the Date: GATA Training Webinars

Message :

Good morning,

Grant Accountability and Transparency Act (GATA) is landmark legislation that will increase accountability and transparency in the use of grant funds while reducing the administrative burden on State agencies and grantees through the adoption of the federal grant guidance and regulations.

The Governor's Office of Management and Budget has announced two upcoming GATA training opportunities:

1. Pre-award Phase Implementation – Roles and Responsibilities: Tuesday, April 26th from 1:00pm - 3:00pm
2. Uniform Budget Template and Indirect Cost Rates: Week of May 2nd (date TBD)

Please find attached the Save the Date flier for the Roles and Responsibilities training. The following details are provided in the flier:

- Training Objective
- Agenda
- Target Audience
- Recommended Pre-requisites

Registration information and supporting documents for the webinar have not been provided as yet, but will be distributed under a separate email once available. The webinars are limited to 200 participants. Group viewings are strongly encouraged to maximize participation. In preparation for the upcoming trainings, please complete the Adobe Connect Diagnostic test by clicking [HERE](#). Completing the test will ensure that your computer is setup appropriately to use Adobe Connect.

Please continue to visit [GOMB's GATA Website](#) and [EGRAMS](#) for GATA updates. An FAQ document is also available on [HERE](#) for reference.

Thank you,

Estrelitta Harmon
