IDPH EGrAMS/GATA SPECIAL Bulletin: August 2017

**Training Opportunity!**

To assist grantees struggling with indirect costs and indirect cost rate negotiations, GATA is promoting a live training provided by Forefront. Forefront is offering two training sessions on this topic – Springfield on 9/14 and Chicago on 9/15. The attached flier includes more specifics. This flier promoting the training will also be posted to the GATA home page (grants.illinois.gov) and will be released to all entities with an accepted NOSA.

**Please note:** Training registration is through Forefront. The training is $40 per participant and includes an afternoon, hands-on session. Seating will be limited.

Forefront may offer additional sessions based on demand. We’ll keep you posted if additional sessions are scheduled.
Benefiting from Government Grant Reforms - Utilize an Indirect Cost Rate

Forefront is offering training to assist entities that receive federal, federal pass-through or state grants understand and determine their indirect costs. This event is targeted towards individuals at nonprofits with government grants and contracts whose job responsibilities include financial management.

Good news came to nonprofits in December 2014, when the U.S. Office of Management and Budget (OMB) published Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Grants (Uniform Guidance). The Uniform Guidance effects nonprofits that receive federal grant funds, either directly or passed through state and local entities. The federal regulations are also incorporated into GATA and therefore apply to grants and contracts made with State funds as well. Among many sweeping changes in the new rules, governments are now required to reimburse nonprofits for reasonable indirect costs through a de minimis or negotiated indirect cost rate. If you need help figuring out what indirect costs are—what’s direct, what’s indirect, how to allocate indirect costs, the different methods that can be used to calculate a rate or how to apply the rate to your nonprofit’s expenses, join us for this training session.

**Purpose:** Training will provide an overview of Uniform Guidance and emphasize key elements associated with indirect cost rates. A hands-on exercise will help attendees better understand how to apply the requirements to their unique operation.

**Target Audience:** Individuals at nonprofits with government grants and contracts whose job responsibilities include financial management.

**When and Where:** Two Identical Sessions are Offered!
