

# A Guide for Improving Health Professionals and Public Access to Injury, Violence, and Suicide Prevention and Control Data in Illinois

Prepared by:

Data and Surveillance Section

Division of Chronic Disease /Office of Health Promotion

Illinois Department of Public Health (IDPH)

and

Illinois Partnership for Safety (IPS)

**April 2020**

## Introduction

The following guide is a comprehensive review, initiated by the Illinois Department of Public Health's Injury Prevention Program, of existing injury data websites available to the public. In accordance with the state's ongoing efforts to promote data accessibility, data dissemination, and data utilization, the data collection activities undertaken by injury professionals and the citizens of Illinois are critical to the Illinois' Injury Prevention Program and therefore should be provided with ease and accessibility.

As of April 2020, the links referenced in this document remain live and active. Users are encouraged to utilize any of the data paths, data-related information paths, data documentation paths and/or other data sources in this guide to access important injury data and data-related information for viewing and collection. These paths may be modified at any time at the discretion of the database owners. In keeping with this objective, the partnership will continue to update the links within the guide as needed.

## Crime and Victimization Data

**Table 11. National Child Abuse and Neglect Data System (NCANDS), Child Welfare Information Gateway, ACF**

Data source	Online query	Level of data			Years available		Method of collection	Variables exist	Data request (Form)	Link to data dictionary
		National	State	County	From	To				
<a href="#">Link</a>	No	Yes	Yes	No	Multiple years	Multiple years	Multiple	Yes	Not found	Not found

Data on child abuse, child welfare are available and downloadable from different websites (see below) that users can access from the National Child Abuse and Neglect Data System (NCANDS), Child Welfare Information Gateway, ACF. Users can use the link in the table to self-access national and state specific datasets for the years 1995 to present.

**Data path**

Topics→ Systemwide → Statistics | Statistics on child and family well-being | Statistics on substance use disorders | Child abuse and neglect statistics | Child welfare/foster care statistics | Adoption statistics | Related statistics and demographic data |

After the second arrow in the data path above, each following component is a source of injury data that is found either in documentations or reports as well as from Datawarehouse. Therefore, data users must continue to search for data of interest as they reach a higher level.

For example: Topics→ Systemwide → Statistics→ Statistics on child and family well-being | Reports Data warehouses

**DATA FORMAT**

Documentation ( on the web access)

PDFs

CSV

ZIP file

SAS

**VARIABLES**

Data users will find variables in reports and data files .

**OTHER INFORMATION**

Data collectors will need to use different data links housed in the data warehouses and reports to search for specific injury data on child abuse and child neglect.

Table 12. National Crime Victimization Survey (NCVS), BJS										
Data source	Online query	Level of data			Years available		Method of collection	Variables exist	Data request (Form)	Link to data dictionary
		National	State	County	From	To				
<a href="#">Link</a>	Yes	Yes	Yes	No	1980	2014	Report	Yes	Contact askBJS@usdoj.gov	Not found

Data are available and downloadable from the U.S. Department of Justice Bureau of Justice Statistics website (see below). Users can use the link in the table to self-access national, and state specific datasets for the years 1980 to 2014 (see other information below).

The Bureau of Justice Statistics has a useful data analysis tool that allows users to explore injury data. Follow the steps below to get started.

**Data path**

Home → data analysis tools → view dynamic tools → (use the user’s guide in the textbox below to explore the data analysis tools)

From the **view dynamic tools** level, users can select the area of interest and run the type of data they want.

Data collectors may also follow the steps below to collect data.

Home → data collections → and click on the corresponding area of interest.

## Drug Abuse Data

**Table 15. Drug Abuse Warning Network (DAWN), SAMHSA**

Data source	Online query	Level of data			Years available		Method of collection	Variables exist	Data request (Form)	Link to data dictionary
		National	State	County	From	To				
<a href="#">Link</a>	No	Yes	Yes	Unknown	2004	2011	ED medical records (survey)	Yes	Yes <a href="#">Link</a>	Not found

Data on **Drug Abuse Warning Network (DAWN)** are available and downloadable from the SAMHSA website. There are three ways to access data: (1) Public-use Microdata Files, (2) Public-use Data Analysis System (PDAS), and (3) Restricted-use Data Analysis System (RDAS). However, all ways are not available for all study files.

**Data path:**

1. Public-use Microdata Files: Data → Browse Studies → Drug Abuse Warning Network (DAWN) → DAWN-2011 (or 2010, 2009, 2008, 2007, 2006, 2005, 2004) Drug Abuse Warning Network → Datasets in this Study → Dataset Downloads
2. Public-use Data Analysis System (PDAS): ANALYZE → PUBLIC DATA (PDAS) ( from this level users will need to follow instructions on the screen to utilize the online analysis tool)
3. Restricted-use Data Analysis System (RDAS): ANALYZE → RESTRICTED DATA (RDAS): ( from this level users will need to follow instructions on the screen to utilize the online analysis tool)

**DATA FORMAT**

SAS

According to IDPH website, death records are not public records and are only available to those who have a personal right (“property right” is defined as something that it is owned, tangible, such as a car title or a property deed) with the decedent. People who meet certain requirements can use the application for Illinois Death Record form to request death certificates.

Follow the path below to get more information.
