

LUPUS TRAINING FOR FAITH-BASED ORGANIZATIONS

May is Lupus Awareness Month!

An estimated 1.5 million Americans have Lupus. Women of color are 2-3 times more likely to develop Lupus. Learn how this almost invisible chronic disease is endangering the health of minority communities.

Learning Objectives:

- What is Lupus
- Disparities in women of color
- Signs/Symptoms
- Best practices leading to early diagnosis
- What you can do

Speakers will include lupus experts, patients, and caregivers.

**MEMORIAL CENTER FOR
LEARNING & INNOVATION
