

Number of Illinois Long-term Care Facilities by Region

09/24/21

Long-term care facility (LTCF) coverage is generally divided according to the Illinois Department of Public Health (IDPH) health regions (map below). Because there are significantly more LTCFs in northeastern Illinois, that area has a somewhat different distribution. These regions are periodically reviewed, and adjustments made to ensure an equitable distribution of the workload. State agencies that operate 24/7 congregate facilities are assigned specific infection preventionists in order to have consistency of messaging.

Number of Illinois long-term care facilities by region	
Region	Number
Chicago, DuPage, Lake	314
DeKalb, Evanston, Grundy, Kane, McHenry, Oak Park, Skokie	124
Cook, Kankakee, Kendall, Will	299
