Dental Schools and Dental Hygiene Programs in Illinois

Dental Schools in Illinois

General Dentist

A general dentist (DDS or DMD) is the primary care dental provider. The general dentist diagnoses, treats, and manages the overall oral health of their patients. Treatment may include fillings, crowns, bridges, gum care, root canals, simple tooth removals, and removable appliances (dentures and partials). To become a dentist, you must have a college bachelor's degree and graduate from an accredited dental school. There are three dental schools in Illinois. Learn more about a career in dentistry [here](#).

Job Outlook

Overall employment of dentists is projected to grow 3% from 2019 to 2029, about as fast as the average for all occupations. The demand for dental services is expected to increase as the population ages and as research continues to link oral health to overall health.

Pay

The median annual wage for dentists was \$159,200 in May 2019.

Dental Hygiene Schools in Illinois

Registered Dental Hygienist

A dental hygienist will clean teeth, take X-rays, evaluate for gum infection and periodontal disease, and apply sealants and fluoride treatments. Providing home care instructions for dental care is also an important part of the dental appointment. To become a dental hygienist, you must graduate from a college dental hygiene program. There are 13 colleges in Illinois with dental hygiene programs. Learn more about a dental hygiene career [here](#).

Job Outlook

Employment of dental hygienists is projected to grow 6% from 2019 to 2029, faster than the average for all occupations. The demand for dental services is expected to increase as the population ages and as research continues to link oral health to overall health.

Pay

The median annual wage for dental hygienists was \$76,220 in May 2019.
