

SHIP Team Worksheet
Public Health Issues Discussion
October 16, 2020

The SHIP Team will be selecting priority issues for the state of Illinois to collectively address as a public health system over the next 18 months (January 2020-June 2021) while we simultaneously embark on a comprehensive equity driven State Health Assessment and a 5-year State Health Improvement Plan. To select the priority issues and vision for success for the 18-month plan, we ask that SHIP Team members review the following pre-recorded webinars:

1. Introduction to the [State Health Improvement Plan webinar](#) (23 minutes)
2. Current [State of Health Status in Illinois webinar](#) (75 minutes)

As you view/listen to the second webinar on the state of the health status in Illinois and reflect, please note your answers to the following questions. We will be discussing your responses primarily in virtual break-out groups during our meeting on Friday, October 16th from 10:30 AM to 12:00 PM. To ensure we efficiently use your time, please complete in advance and be prepared to share your responses

Part A - Break-out Session 1: *For the questions below, the previously identified health issues from the Healthy Illinois 2021 plan included the following: Mental Health, Chronic Disease, Maternal & Child Health with implementation requirements related to Social Determinants of Health (community safety, built environment, education, equity, housing, employment) and Access to Quality Care. See below for visuals from the Healthy Illinois 2021 plan.*

1. How do the previously identified issues from the Healthy Illinois 2021 plan (listed above) *align* with the data presented in the webinar recording?

2. How do the previously identified issues from the Healthy Illinois 2021 plan (listed above) *differ* from the data presented in the webinar recording?

Part B – Break-out Session 1: For the following questions, you may list any issues. The issues do not have to be from the list of Healthy 20201 issues.

3. What issues are most urgent to address for Illinois today? Why?

4. What issues have the greatest impact on the health of Illinois residents? Why?

Part C - Individual Response in Chat: *For the following question, you will be asked to share your response to Q 5 in the chat log during the meeting on Friday, October 16th. The issues you choose may include previous priorities, new priorities or a combination.*

5. If you had to pick 3 priority issues today that Illinois should focus on for the next 18 months, what would you pick?

1. X
2. X
3. X

Part D – Breakout Session 2: *For the following question, you will be discussing in a break-out session if time permits on Friday, October 16th. If time does not permit, you will be sharing in the chat log or unmuting your line and sharing during the live meeting.*

6. If we are successful with implementing an 18-month plan as a public health system, what would we see 18 months? What would be different/improved? What would be happening?
