

Campaign to Save Our Moms & Babies Awareness Leads to Action

Infant Mortality Awareness Month

SEPTEMBER

Infant mortality is an infant death during the first year of life. The infant mortality rate is an estimate of the number of infant deaths for every 1,000 live birth.

Resources:
www.everthriveil.org

INFANT MORTALITY IS A MAJOR INDICATOR OF THE OVERALL HEALTH AND WELL-BEING OF A COMMUNITY

Leading causes of infant mortality

1. Premature and low birth weight
2. Congenital abnormalities
3. SUID

In 2016, for every 1,000 babies born almost

6 died

before they could reach their first birthday.

A black baby born in Illinois is almost **3 times more likely to die**

than their white counterparts born that same year.

SIDS/SUID & Perinatal Loss Awareness Month

OCTOBER

sids
SUDDEN INFANT DEATH SERVICES
of illinois, inc.

Sudden Unexplained Infant Death (SUID) includes death due to accidental suffocation, overlay, infection, natural, trauma, drugs, poison, neglect/homicide, and other unknown causes.

www.sidsillinois.org

FOLLOW THE ABCs OF SAFE SLEEP FOR A BABY: ALONE, ON BACK, IN A SAFE CRIB IN A SMOKE FREE ENVIRONMENT

1 in 5 people

people know someone who has experienced the death of an infant.

Black infants are twice as likely to die of SIDS

than white infants

Bed-sharing with baby increases risk of death by

5x

during the first three months of life even if there are no other risk factors present

Prematurity Awareness Month

NOVEMBER

Premature birth is when a baby is born at fewer than 37 completed weeks gestation.

www.marchofdimes.org

SOLVING THE COMPLEX PROBLEM OF PREMATURE BIRTH

1 in 10 babies is born prematurely

premature birth is the

#1 cause of death in newborns

premature birth is a leading cause of

lasting childhood disabilities,

such as learning, vision and lung problems
